

7th Module 2019

Intermediate and Advanced Surgical Retina

Final programme

03-07 June 2019, Lugano, Switzerland

	MONDAY, 03 JUNE 2019	
	COMPLEXITIES IN RETINAL SURGERY	
08:30	Registration and welcoming	
09:00	Complicated buckling surgery	Georgios Blatsios, Austria
09:30	Surgical management of complicated PVR	Georgios Blatsios, Austria
10:15	Submacular PFCL	Georgios Blatsios, Austria
10:45	COFFEE BREAK	
11:15	Management of large submacular haemorrhages	Georgios Blatsios, Austria
12:00	Retinal prosthesis implants	Georgios Blatsios, Austria
12:30	LUNCH	
	PITS AND PEARLS FOR PRINCIPLE STEPS OF VITRECTOMY	
13:30	Vitreous anatomy in relation to physics of vitrectomy	Robert Rejdak, Poland
14:30	Complications of cataract surgery in hands of the vitreoretinal surgeon	Robert Rejdak, Poland
15:30	COFFEE BREAK	
15:30-16:30	Preparatory lecture to Wet-Lab and how to act on your workstation	Robert Rejdak, Poland
	TUESDAY, 04 JUNE 2019	
08:30	Technical preparatory lecture to Wet-Lab (companies)	
09:15 -09:45	<i>Presentation on robotic assistance: the PRECEYES Surgical System</i> 	
09:50	Wet-Lab / Dry-Lab and Video Session: Challenging cases and complications in vitreoretinal surgery	Matteo Forlini, Italy; Robert Rejdak, Poland
12:30	LUNCH	
13:30-17:30	Wet-Lab / Dry-Lab and Video Session: Challenging cases and complications in vitreoretinal surgery	Robert Rejdak, Poland
	WEDNESDAY, 05 JUNE 2019	
08:30	Wet-Lab / Dry-Lab and Video Session: Challenging cases and complications in vitreoretinal surgery	Matteo Forlini, Italy; Robert Rejdak, Poland
12:30	LUNCH	
13:30-17:30	Wet-Lab / Dry-Lab and Video Session: Challenging cases and complications in vitreoretinal surgery	Matteo Forlini, Italy; Robert Rejdak, Poland

7th Module 2019

Intermediate and Advanced Surgical Retina

Final programme

03-07 June 2019, Lugano, Switzerland

	THURSDAY, 06 JUNE 2019	
	STANDARD AND PERSONAL TECHNIQUES IN VITREORETINAL SURGERY	
09:00	Surgical techniques in advanced diabetic retinopathy	James Clarke Rice, South Africa
10:00	Endoresection of choroidal melanoma	James Clarke Rice, South Africa
11:00	COFFEE BREAK	
11:30	Vitreoretinal surgery: techniques I find useful	James Clarke Rice, South Africa
12:30	LUNCH	
	THE POINT OF THE MASTER SURGERY	
13:30	How to improve the outcomes of retinal detachment surgery	Stanley Chang, USA
14:00	Using OCT to improve the outcomes of macular surgery	Stanley Chang, USA
14:30	COFFEE BREAK	
15:00	Complications of tamponades	Stanley Chang, USA
15.30-16.00	Management of dislocated IOLs	Stanley Chang, USA
	FRIDAY, 07 JUNE 2019	
	WIDE RANGE PROCEDURES OF VITREORETINAL SURGERY	
08:30	Pediatric vitreo-retinal surgery	David Keegan, Ireland
09:30	Use of intra-ocular magnifying devices in end stage AMD	David Keegan, Ireland
10:30	COFFEE BREAK	
11:00	Mixed techniques in complex retinal detachments	David Keegan, Ireland
12:00	Vitreoretinal surgery: a personal technique	David Keegan, Ireland
12:30	LUNCH	
	IMAGING FOR RETINAL SURGERY	
13:30	Utility of wide-field images in vitreoretinal surgery	Adrian Koh, Singapore
14:00	Discover findings that would limit the visual recover or would worsen visual acuity after macular surgery	Adrian Koh, Singapore
14:45	COFFEE BREAK	
15:15	OCT of macula pre and after surgery for retinal detachment with macular on or macular off	Adrian Koh, Singapore
15:45	Cystoid Macular Edema after Cataract and/or Pars Plana Vitrectomy	Adrian Koh, Singapore
16:15-16:45	Test, certificates and farewell
