

7th Module 2021

Intermediate-Advanced Surgical Retina

Preliminary programme

18 - 20 November 2021, Lugano, Switzerland

Scientific coordinators: Dr. Mario Romano

	THURSDAY 18 NOVEMBER	
08:30-09:00	Registration and welcoming	
	CONTROVERSIAL TOPICS IN THE MANAGEMENT OF DISEASES OF VITREORETINAL INTERFACE	
09:00	Idiopathic epiretinal membrane: surgical planning and prognosis	Andrea Govetto, Italy
09:30	Surgical options for refractory and recurrent idiopathic full-thickness macular holes	Mario Romano, Italy
10:00	Lamellar macular holes: from classification to surgical management	Andrea Govetto
10:30	COFFEE BREAK	
11:00	Myopic Traction Maculopathy: classification and treatment options	José L. Vallejo Garcia, Spain <i>Virtual session</i>
11:30	Macula buckling: indications and outcomes	José L. Vallejo, Mario Romano, Andrea Govetto
12:00	Case presentations, panel discussion + Q&A Session	José L. Vallejo, Mario Romano, Andrea Govetto
12:30	LUNCH	
13:30-16:30	WETLAB: insertion of trocars, visualization of the retina with an indirect no-contact system, vitrectomy, management of the vitrectomy system parameters. Lensectomy, vitreous staining, vitrectomy, VR interface staining, peeling	Mario Romano Andrea Govetto
	FRIDAY 19 NOVEMBER	
	ASSESSMENT AND SURGICAL OPTIONS FOR RHEGMATOGENOUS RETINAL DETACHMENT	
09:00	Assessment of rhegmatogenous retinal detachment and surgical planning	Mariantonia Ferrara, Italy
09:30	Rediscovering pneumatic retinopexy: emerging evidence	Francesco Boscia, Italy <i>Virtual session</i>
10:00	The role of scleral buckle in retinal detachment repair	Vincenzo Ferrara, Italy
10:30	COFFEE BREAK	
11:00	Vitrectomy for retinal detachment repair: optimization step by step	Mariantonia Ferrara
11:30	Vitrectomy combined with encircling scleral band: pros and cons	Vincenzo Ferrara
12:00	Case presentations, panel discussion + Q&A Session	Vincenzo Ferrara Mariantonia Ferrara Francesco Boscia
12:30	LUNCH	
13:30-16:30	WETLAB: Lensectomy, induction of retinal tear, fluid/air exchange, management of retinal detachment	Vincenzo Ferrara Mariantonia Ferrara

7th Module 2021

Intermediate-Advanced Surgical Retina

Preliminary programme

18 - 20 November 2021, Lugano, Switzerland

Scientific coordinators: Dr. Mario Romano

SATURDAY 20 NOVEMBER		
CHALLENGES IN VITREORETINAL SURGERY		
09:00	Pole to pole surgery in ocular trauma	Rino Frisina, Italy
09:30	Retained subretinal perfluorocarbon liquid droplets: physics and management	Aman Chandra, UK <i>Virtual session</i>
10:00	Traumatic retinal detachment	Rino Frisina
10:30	COFFEE BREAK	
11:00	Surgical management of intraocular foreign body	Aman Chandra <i>Virtual session</i>
11:30	Suprachoroidal haemorrhage: rationale and timing of surgical intervention	Tsveta Ivanova, UK <i>Virtual session</i>
12:00-12:30	Case presentations, panel discussion + Q&A Session	Rino Frisina Aman Chandra Tsveta Ivanova
